

Symposium on Cardiovascular Diseases and Therapies

June 19-20, 2021, Yerevan

Directors

Sarkis Kiramijyan, MD,
Lilian Grigorian, MD, PhD,
Hamayak Sisakian, MD, PhD

Day 1

9:00 – 9:20 Welcome

Coronary Artery Disease - Moderator: Armen Ter-Akopyan, MD, Moscow

9:20-9:40. STEMI. Complete revascularization vs culprit lesion only - Armen Ter-Akopyan, MD, Moscow

9:40-10:00. Diagnosis and management of MINOCA - Mikael Adamyan, MD, Yerevan

10:00-10:20. Diagnostic pathways in suspected CAD: the role of CTA - Harout Yacoub, MD, New York

10:20-10:40. Myocardial revascularization in chronic coronary disease: coronary physiology-guided PCI - Lilian Grigorian, MD, PhD, Madrid

10:40-11:00. Complex PCI 1. CTO therapies - Nelson Bernardo, MD, Washington

11:00-11:20. Complex PCI 2. Left Main Disease and Bifurcations - Juan Luis Gutierrez-Chico, MD, PhD, Shanghai

11:20-11:40. Panel Discussion

Afternoon short sessions

12:00-12:30. **Antithrombotics in CAD**: which, when, for how long? – Hamlet Hayrapetyan, MD, Yerevan

12:30-13:00. **Technology and Innovation**: Bio-Resorbable Stents, Drug-Eluting Stents, Drug-Coated Balloons - Romain Didier, MD, Brest

14:00-15:00 **Early Career. Clinical cases**. Best Abstracts Presentations
Moderators: Lilian Grigorian MD, PhD, Madrid. Ani Nalbandian, MD, New York

Official Languages: English and Armenian

Day 2

Myocardial Disease and Heart Failure - Moderator: *Hamayak Sisakian, MD, PhD, Yerevan*

15:00 - 15:20. Cardiogenic Shock. Hypothermia and Circulatory support: when and which? -

Justin Fried, MD, New York

15:20 – 15:40. Guidelines-directed therapy of HFrEF, HFieF and HFpEF - *Kelly Axiom, MD, New York*

15:40 - 16:00. Hypertrophic Cardiomyopathy - *Farhana Latif, MD, New York*

16:00 – 16:20. Alcohol Septal Ablation - *Sarkis Kiramijyan, MD, Los Angeles*

16:20 – 16:40. Cardiac MRI for differential diagnosis of cardiomyopathies - *Hamayak Sisakian, MD, PhD, Yerevan*

16:40 – 17:00. Cardiomyopathy in Oncological patients: prevention and treatment - *Jose-Ramon Gonzalez-Juanatey, MD, PhD, Santiago de Compostela*

17:00 – 17:20. Panel Discussion

Adult congenital heart disease - Moderator: *Priya Pillutla, MD, Los Angeles*

17:35-17:55. Building an Adult Congenital Heart program – *Ali Zaidi, MD, New York*

17:55-18:15 Pulmonary Hypertension in ACHD - *Ronald Oudiz, MD, Torrance*

18:15-18:35. Transition to adulthood – *Priya Pillutla, MD, Los Angeles*

18:35-18:55. Specific lesions and treatments - *Jamil Aboulhasn, MD, Los Angeles*

18:55-19:15 The Ozaki Technique: A Valuable Option for Aortic Valve Reconstruction - *Avetis Aharonyan, MD, Yerevan*

19:15-19:35 Panel Discussion

Valvular Disease Management - Moderator: *Sarkis Kiramijyan, MD, Los Angeles*

9:00-9:20 European Survey on Valvular Heart Disease II – *Alec Vahanian, MD, PhD, Paris*

9:20-9:40 Aortic Repair vs Replacement: surgical background and current practice - *Vahram Ornekian, MD, Los Angeles*

9:40-10:00 Sutureless aortic valve: advantages and disadvantages - *Thierry Folliguet, MD, Paris*

10:00-10:20 Transcatheter aortic valve replacement: who is the ideal candidate in Armenia and future visions - *Bagrat Alekian, MD, PhD Moscow*

10:20-10:40 Transcatheter approach for mitral repair – *Sarkis Kiramijyan MD, Los Angeles*

10:40-11:00 Surgical Mitral Repair vs. Replacement - *Vahram Ornekian, MD, Los Angeles*

11:00-11:20. Panel Discussion

Afternoon short sessions

11:40-12:10 **Anticoagulation in special settings**: associated to antiplatelet therapy, surgical/transcatheter valves. Guidelines recommendations – *Sarkis Kiramijyan, MD, Los Angeles*

12:10 – 12:40 **Patient needs and Innovations for the treatment of heart valve disease in low- to middle-income countries** - *Peter Zilla MD, PhD, Cape Town*

12:40 – 13:10 **Research Sessions**. Biological therapies for cardiac diseases: State of the Art - *Lilian Grigorian, MD, PhD, Madrid*. Application of 3D printing in cardiovascular medicine - *Kanwal Farooqi, MD, New York*.

Official Languages: English and Armenian

Arrhythmias and Clinical EP - Moderator: Armen Khachatryan, MD, Yerevan

14:00 – 14:20 Atrial Fibrillation. Clinical challenges in 2021 - *Sergey Barsamyan, MD, Oxford*

14:20 – 14:40 Atrial Fibrillation Ablation: who? When? How? - *Miguel Salazar, MD, L.A.*

14:40 – 15:00 Ventricular Tachyarrhythmia. Catheter Ablation and subcutaneous ICDs - *Smbat Jamlyanian, MD, Yerevan*

15:00 – 15:20 Device Therapeutic Approaches, CRT, External Defibrillator, Leadless CRT/PM - *Armen Khachatryan, MD, Yerevan*

15:20 – 15:40 Panel Discussion

Vascular Disease - Moderator: Eduard Aghiyani, MD

16:00-16:20 Thoracic Aortic Aneurysm and Dissection: surgical and endovascular repair – *Raffi Kasabyan, MD, Sydney.*

16:20-16:40 Abdominal Aortic Aneurysm: surgical vs. endovascular repair: *Eduard Aghiyani, MD, Yerevan.*

16:40 – 17:00 Critical Limb Ischemia: endovascular management: *Nelson Bernardo, MD, Washington, DC.*

17:00 – 17:20 Carotid and Cerebrovascular Interventions in acute and chronic settings - *Mikayel Grigoryan, MD, Los Angeles.*

17:20 – 17:40 Advanced Therapies in Pulmonary Embolism: The Role of the PERT Team - *Sanjum Sethi, MD, MPH, New York.*

17:40 – 18:00 Panel Discussion

18:00 – 18:15 **Early Career Award Session.** Presentation of the best selected case
